CERTIFICATE

Date: 28 November 2012

Client: Wallboard Tool Company Pty Ltd
30 Leda Drive
West Burleigh, QLD 4219

Attention: Mr Jim Swain, Sales Manager

Project: Telescopic Sheet Prop

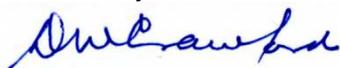

Reference: Telescopic Sheet Prop — revised design

A revised design Telescopic Sheet Prop was tested in accordance with a test protocol prepared by the undersigned and dated 2 January 2012. The prop was subjected to a test load of 600N (61.2 kg) being 2 times the nominal working load of 300N (30.6 kg). Upon removal of the test load there was no permanent deformation of the prop.

I certify that the revised design Telescopic Sheet Prop as tested is rated for a working load of 30 kg when used as directed by Wallboard Tool Company Pty Ltd.

Testing was carried out by Mahaffey Associates Pty Ltd, Unit 9/108 Percival Road, Smithfield, NSW 2164 — Job Number 10214 on 14 November 2012.
